CORDURA[®]
Advanced Fabrics

In classical Latin, the word “Durabo” translates as “I will endure”. This formula has been used for centuries as the motto of kings and cardinals, the battle cry of an army, and even as verses of poetry. By taking DURABO® as our brand name, we embraced its heritage – a combination of a vision to create a lasting style and a promise made to our clients.

DESIGN PHILOSOPHY

As Stephen King wrote in one of his novels “everything old is new again”. Our mission is to create universal clothing, the functionality and quality of which will be appreciated by our clients. This resolution prompted us to look at the history of military clothing for inspiration. We looked at the most classic designs of field clothing of the 20th century and designed them anew, combining their best features, style and functionality with the possibilities offered by modern materials and technical fabrics. The DURABO® collection grants you a classic retro look combined with improved ergonomics, functionality and, thanks to the use of Cordura® fibres in our fabrics, great durability.

BRAND HISTORY

DURABO® is a commercial brand of the Kreator company; a family business with over 35 years of history in production of military uniforms. Our company is located in the beautiful gothic city of Toruń. It is no coincidence that all the symbols of the DURABO® brand – the Salamander and the name itself are closely related to the history of Toruń.

DURABO PRODUCT LINES

SUPER LINE

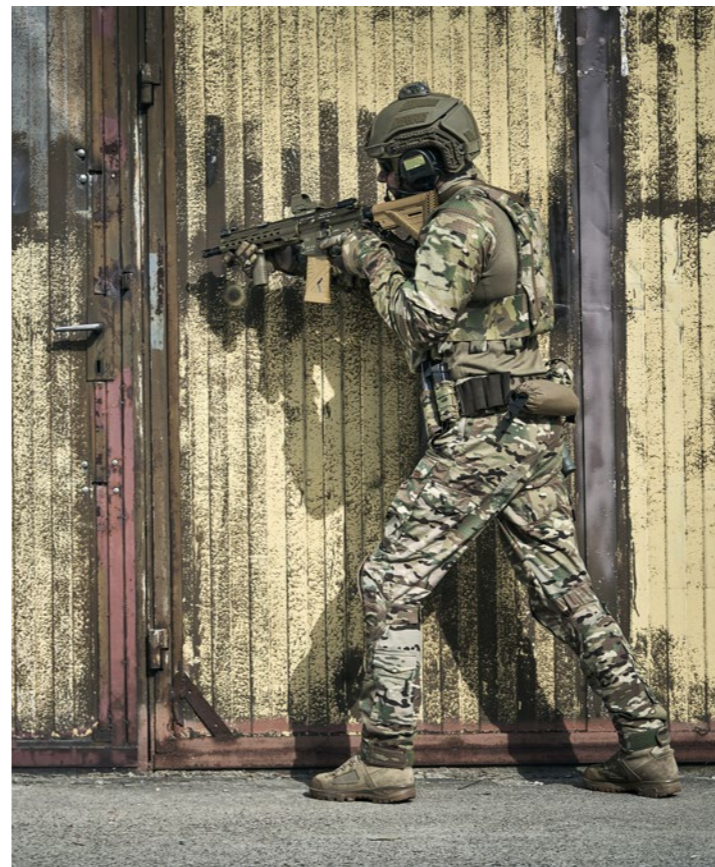

"Sooner or later everything old is new again". This phrase written by Stephen King is perhaps the quintessence of the idea standing behind DURABO "SUPER" line. Cult clothing models, style icons of the passed century, modernized with upgraded functionality and best possible materials. Pants, jackets, shirts or blouses – DURABO "SUPER" line is a "classic" reinvented anew.

X LINE

Are you not frustrated by the fact that almost everything we use nowadays is made to be broken within certain period of time? We certainly are – that's why when we developed "X" line we focused on the durability. We have developed and used highest quality fabrics and additions, manufactured in Europe by renowned European producers. On top of that our products are also manufactured in the very heart of Europe. DURABO "X" line is an effect of over thirty years of experience in designing wears, it's a passion for creating functional solutions for everyday use. DURABO "X" is a promise of quality and durability for years.

DURABO PRODUCT LINES

ALFA LINE

For professionals – by professionals. "ALFA" line has been developed in cooperation with special forces veterans. Tested in combat environment, each element of the combat wear system provides maximum protection and durability as well as optimal thermoregulation of your body. We are using exclusively renowned producers of fabrics and additions which are the best possible quality the market has to offer. That guarantees the highest level of quality and resistances of our wears. DURABO "ALFA" system are the best solutions tested and approved by special forces in modern field of combat.

CORDURA® *Advanced Fabrics*

CORDURA®

Cordura is a trade name for fabrics characterized by high abrasion resistance. This feature was obtained thanks to the use of a special structure of fibres and their weaving methods. Currently, Cordura® is widely used in the production of combat uniforms and suits, hiking, expedition and cycling backpacks, as well as shoes and clothing for motorcyclists. This fabric boasts high resistance to weather conditions and, thanks to its internal structure, is very light. These properties fit perfectly into the brand's philosophy, that is why the DURABO® collection is based primarily on Cordura® fabrics. Now your new jeans, flannel shirt, jacket or tactical pants will be able to meet the daily challenges of the urban "battlefield".

SUPER 51 DENIM

SUPER 51 DENIM is a variation on the classic M51 field shirt, which dates back to the Korean War. Simple anatomic cut is perfect for any occasion. Cordura Denim fabric provides exceptional durability and comfort.

The high collar allows protection against wind, cold or unexpected rain, and the flaps on the pockets guarantee the safety of items stored in them. Openings for glasses in the pocket flaps, hidden pockets inside or reliable Canadian 2M buttons complete the impression of high quality and practicality of the SUPER 51 DENIM.

- Cordura® Denim fabrics for comfort and durability
- Anatomic cut for freedom of shoulder movement
- Loops for glasses and pens in the pocket flaps
- Discreet and ergonomic inside pockets
- Canadian buttons by 2M
- Tailored back

FABRIC COMPOSITION: 80% cotton | 17% polyamide 6.6 (Cordura®) | 3% Lycra

Available colours

Orange

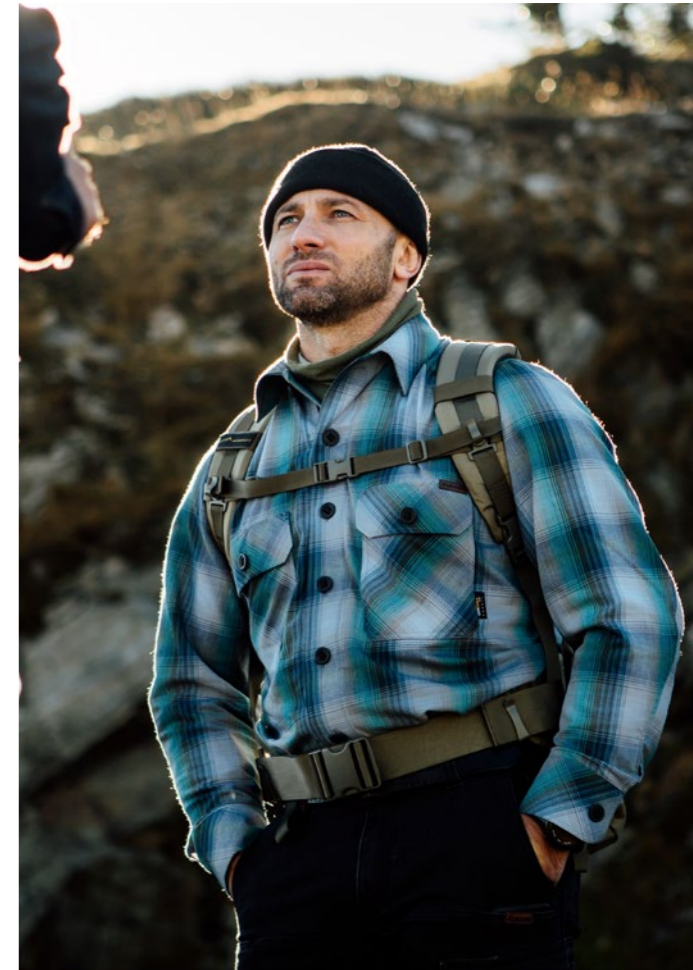

SUPER 51 FLANNEL

Flannel is reinventing the fashion market, especially tactical one. That is why we designed the classic M51 shirt using Cordura Flannel fabric for exceptional comfort and durability. An anatomical cut and tailored back will make the SUPER 51 perfect for both "Battlefield" fashion as well as for a city outing or work.

Openings for glasses in the pocket flaps, hidden pockets inside or reliable Canadian 2M buttons complete the impression of high quality. SUPER 51 Flannel is a shirt that definitely stands out!

- Cordura® Flannel fabrics for comfort and durability
- Anatomic cut for freedom of shoulder movement
- Loops for glasses and pens in the pocket flaps
- Discreet and ergonomic inside pockets
- Canadian buttons by 2M
- Tailored back

FABRIC COMPOSITION: 80% polyamide 6.6 (Cordura®) | 20% wool

SUPER HOODIE – FOR WOMEN

There's hardly a more popular type of clothing than the hoodie, is there? To understand its phenomenon, we went back to its birth, the New York docks and stadiums of the 1930s and 1940s.

We took a close look at the first hoodies in the world and created our retro model, the Super Hoodie. It takes the historic form of the sports hoodie with a sewn-on hood and adds few new features, such as a zip pocket and a low stand-up collar.

- Spacious hood with Desert Night Camo print lining
- Secure zip pocket for storing e.g. documents
- Small side pockets for small items
- A low stand-up collar

FABRIC COMPOSITION: 90% Cotton | 10% Polyester

- Available colours

EDC X

Phone, keys, wallet, documents, multitool knife, pen, flash-light, compass, tissues, lighter – all this can be useful for tactical training or hiking, but where to keep it? Don't worry – the EDC X pants have been designed especially for those “everyday carry” items!

- 12 EDC pockets
- Velcro adjustable legs
- Tear-resistant COATS threads
- Pockets for protective pads in the knee area
- Cordura NYCO fabric for high abrasion resistance
- Velcro adjustable waist for maximum wearing comfort
- Loops reinforced with bar tack for greater strength and durability
- Ergonomic smartphone pockets with a screen size of up to 7 inches!
- Double layer of fabric on the knees for maximum durability in this area
- Raised back of pants for greater comfort when wearing a belt with a heavy load
- Anatomical cut provides increased range of motion without the need for using stretch fabrics which may weaken general durability of pants

FABRIC COMPOSITION: 50% cotton | 50% polyamide 6.6 (Cordura)

- Available colours
- Coyote Brown 
 - Wolf Grey 
 - Onyx Black 

MERKAVA X – FOR WOMEN

As you've been surfing the internet for the last 20 years, there's a good chance you've seen pictures of IDF girls. Israeli female soldiers have become part of mass culture – because it is difficult to find a more striking connection than pretty uniformed girls with rifles. What always caught our attention were the pants of the Bet – field uniform, which you can see in these photos. We have created women's pants in the Durabo collection based on this pattern and its characteristic features.

- Reinforced seat
- Adjustable legs with Velcro
- Characteristic high thigh pockets
- Anatomical cut, fitted to the female figure
- Reinforced belt loops and waist with Velcro adjustable circumference

FABRIC COMPOSITION: 50% cotton | 50% polyamide 6.6 (Cordura®)

Available colours

Coyote Brown 

Wolf Grey 

Onyx Black 

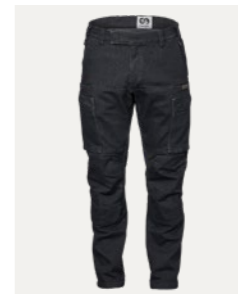

WAYFARESS X – FOR WOMEN

From the very beginning of Durabo, we knew we had to create a version of our pants especially for women. Why “especially”? Why not just cut down on one of the male models? Contrary to appearances, it is not that simple – differences in anatomy, fit and even a different size mean that if we want it to be good, we have to start the project from a scratch. We bring you the Durabo women’s pants that women have tested, changed and wanted to wear.

- Reinforced seat
- Adjustable legs with Velcro
- 12 highly functional pockets!
- Anatomical cut, fitted to the female figure
- Reinforced belt loops and waist with Velcro adjustable circumference

FABRIC COMPOSITION: 50% cotton | 50% polyamide 6.6 (Cordura)

Available colours

Onyx Black

EDC X DENIM

Phone, keys, wallet, documents, multitool, pen, tissues, lighter – all this can be useful for tactical training or hiking, but where to keep it? Don't worry – the EDC X pants have been designed especially for those “everyday carry” items! This time in tactical-urban Denim!

- 12 EDC pockets
- Tear-resistant COATS threads
- Velcro adjustable waist for maximum wearing comfort
- Loops reinforced with bar tack for greater strength and durability
- Anatomical cut with stretchy inserts for increased range of motion
- Cordura Denim fabric for classic looks and high abrasion resistance
- Ergonomic smartphone pockets with a screen size of up to 7 inches!
- Raised back of pants for greater comfort when wearing a belt with a heavy load

FABRIC COMPOSITION: 69% cotton | 29,5% polyamide 6.6 (Cordura®) | 1,5% elastane

Available colours

Navy Blue

DENIM X

Every man's wardrobe should contain at least one pair of well-fitting and universal jeans. And if they are also functional – what more could you want? Guided by this need, we created Denim X pants from dark denim. It is a model made of very durable and abrasion-resistant Cordura Denim fabric.

- Classic dark denim
- **10 useful pockets in jeans!**
- Cordura® Denim for great durability!
- Anatomic cut and stretchy fabric
- Separate pockets for a marker or a flashlight
- Reinforced belt loops and Velcro adjustable waist
- A tab in the back pockets to prevent items from falling out
- Ergonomic smartphone pockets with a screen size of up to 7 inches!

FABRIC COMPOSITION: 69% cotton | 29,5% polyamide 6.6 (Cordura®) | 1,5% elastane

- Available colours
- Capulet Olive 
 - Coyote Brown 
 - Wolf Grey 
 - Onyx Black 

SUPER 65 SHORTS

Every man's wardrobe should include at least one pair of well-fitting summer shorts. Our Super 65 Shorts will be perfect in this role – not too long, not too short, but super durable and capacious.

The Core Rip fabric with Cordura® is responsible for their durability and lightness. Designed in the classic style of the M65 short pants, naturally elastic where needed, with reinforced seams and COATS threads.

- 12 functional pockets
- Zippered side pockets
- Tear-resistant COATS threads
- Velcro adjustable waist for maximum wearing comfort
- Anatomic cut with inserts for increased range of motion
- Loops reinforced with bar tack for greater strength and durability
- Ergonomic smartphone pockets with a screen size of up to 7 inches!
- Cordura® Core Rip fabric grants durability and lightness of the fabric

FABRIC COMPOSITION: 50% cotton | 50% polyamide 6.6 (Cordura®)

JACKETS

- Available colours
- Cathay Spice 
 - Winter Moss 
 - Onyx Black 

SUPER 65

The M65 field jacket is perhaps the most recognizable uniform in history. This model was introduced to the US Army in 1965 in connection with the ongoing conflict in Vietnam. Our Super 65 Jacket, despite numerous changes, maintains the style and feeling of a classic design from the last century. Made of Cordura NYCO Sateen it guarantees maximum durability in all conditions, and the Water Reppellent impregnation will make rain run off the jacket like water off a duck's back. YKK zippers provide protection against penetrating wind and cold.

10 pockets will allow you to store all necessary gadgets. We've also improved a lot of things, such as darts on the back and uninsulated pockets, which were poorly developed in the original version of the jacket. Super 65 is really super comfortable, super practical and super durable.

FABRIC COMPOSITION: 50% cotton | 50% polyamide 6.6 (Cordura®)

SUPER 65

- Lining with pockets (classic USGI also fits)
- In our jacket, the darts on the back really work!
- Cordura® NYCO Sateen with WR finish for maximum durability
- We got rid of useless hand flaps and epaulettes that no one ever used
- Greater range of shoulder movement thanks to the improved sleeve construction
- The semi-lining increases the freedom of movement and reduces the weight of the jacket
- We've insulated the lower pockets so that they could finally fulfill their role and improved their angle
- The long, two-way YKK® zipper protects you from the cold better than the short zipper in the original version, the snaps are by Prym®
- We increased the number of pockets from 4 to 10! This includes discreet pockets on the chest and sleeves to make carrying EDC easier

WE PRESENT THE „ALFA” COMBAT UNIFORM.

Many months of trials, tests and involvement of former special forces soldiers resulted in the final version of the project we named “ALFA COMBAT UNIFORM”. The combination of special forces veterans experience with our knowledge on technology and materials gives you a unique opportunity to get this highest quality three-piece combat uniform.

Dedicated to uniformed services that expect a durable and functional product while maintaining the appropriate aesthetics. We'd like to draw your attention to the exceptionally aesthetic appearance of the set, which gives increased comfort and satisfaction for its user.

The Fabric used in all of “ALFA” products is NYCO (50% Cordura® and 50% Cotton) – we called CORE-RIP®. This fabric has been developed exclusively for DURABD according to our indications for particular parameters required. As a result we created extra durable fabric (over 200 000 cycles Martindale test result), which is pleasantly light (220 g/m2), and its special weave provides remarkable breathability and extra fast moisture vaporisation. This unique set of features gives ALFA line excellent performance results in the field.

The set includes: jacket, pants and combat shirt.

JACKET is made entirely of NYCO fabric (50% Cordura® and 50% Cotton) with ventilation panels around the shoulders for greater freedom of movement.

PANTS main fabric is also NYCO fabric (50% Cordura® and 50% Cotton), however we additionally used elastic inserts to increase the work of the fabric in critical places such as the crotch, waist or knee area. For joint protection we have made external knee pads openings, integrable with various knee pads.

COMBAT SHIRT body is made of flame retardant Polartec® PowerDry fabric (Modacryl 70% and Rayon 30%), and the sleeves are made of NYCO fabric (50% Cordura® and 50% Cotton).”

What's more, the base NYCO Multicam® fabric meets IRR !
